

# Edmonton Bulletin.

Reading Room  
House of Commons

VOL. XV. No. 26.

EDMONTON, ALBERTA, MONDAY, JANUARY 30TH, 1893.

SEMI-WEEKLY, 4 PAGES.

## TELEGRAPHIC.

OTTAWA, Jan. 28.

Via Qu'Appelle.

Parliament opened on the 27th.  
J. G. Blaine died at Washington on Saturday.

Aymot will introduce a bill in the Ottawa house to make voting compulsory.

Hon. H. Langevin will move for all reports about the commission to enquire into a feasible means of completing the telegraph system of the empire.

Radical motions to reform the tariff are again in order. Mr. Davis will move on Monday that in the opinion of the house the duty on barbed wire, agricultural implements, coal oil and cottons be reduced so as to give no more than reasonable protection and that the duty on binder twine be abolished.

## LOCAL.

JOHN ROSS, Indian agent at Saddle Lake, is in town.

The telegraph line between Edmonton and Calgary went down on Friday last.

It is announced that in future in making a cancellation of a homestead entry no fees will be charged.

C. S. W. BRIDGES, arrived from Calgary last week to take a position in the Imperial Bank here.

W. M. HALEY, of Haly & Sutton, and J. T. Blowers of Vancouver, B. C. arrived on Thursday's train.

Bright and clear to-day and not so unpleasantly cold as yesterday. A slight breeze is blowing from the south.

WHEAT is being delivered in considerable quantities at the South Edmonton mill, which will soon be ready to grind.

MISS MARY McLEOD, daughter of Malcolm McLeod, and Miss McConnell, arrived from Regina on Thursday's train.

THURSDAY'S train came in about 2 o'clock on Friday morning, having left Calgary five hours late. It left on Friday morning very little behind time.

W. M. HALEY of the extensive dry goods importing firm of Haly & Sutton, Vancouver, B. C., arrived by Thursday's train on his way to Duluth.

THE body of Wm. Hohm, who committed suicide at Clover Bar on Sunday, January 22nd, was sent east to his relatives at Parkhill, Ont., on Friday's train.

A SALE of ten horses was held at W. S. Robertson's Auction Mart on Thursday last. The horses were all small, but good prices were realized considering their size and condition and that the sale was for cash.

COAL, mined near Dickinson and also near Sioux, North Dakota, is put aboard the cars at \$1 a ton. It costs \$2 at Bismarck, \$3 at Jamestown and \$3.25 at Fargo. It is of low grade and must be mined some time before it can be used to advantage. It also requires specially constructed stoves.

The Calgary Herald is calling for tariff reform. It thinks the duties on coal oil, barbed wire, binder twine, agricultural implements and mining machinery are particularly oppressive to Manitoba the Northwest and British Columbia and that all members of parliament west of Lake Superior should work to secure their reduction.

THE BULLETIN owes an apology to a large number of its readers for their not receiving the last issue of the paper on time. The reason was that the press "slipped a cog" actually, not metaphorically, and there by delayed the issue until it was too late to catch the mail. Fortunately enough papers had been printed to complete the town list before the accident happened.

SIXTY below at Victoria last night and 53 below at Battleford. Only 33 at Touchwood Hills. Thursday, Friday and Saturday last were very cold at Regina. The track of the Regina and Prince Albert railway was blocked as the result of the storm of Thursday last, and on Friday two engines were sent out from Regina to Saskatoon to clear the track. Trains on the C.P.R. main line have been running amply on time.

ALEX. TAYLOR, postmaster, desires the BULLETIN to remind the public that a three cent stamp is required to carry a letter from Edmonton to South Edmonton, while a great many people only use a one cent stamp. In that case the postmaster at South Edmonton must charge double the amount of postage lacking, that is 4 cents, which the person to whom the letter is directed frequently refuses to pay, the result being that the letter is sent to the dead letter office. This trouble would be avoided if people would stamp their letters in full; and it would also be avoided if people would have the return address printed on their envelopes. Of course the printing should be done at the BULLETIN office to have the very best results.

THIS morning at nine o'clock the thermometer registered 55 below, which is lower than it has ever been at Edmonton since the government meteorological observatory was established here in 1879. On Sunday, January 5th, 1880 the thermometer registered 60 below, but at that time the observatory was on the river flat, which is about six degrees colder than on the upland where it is now situated. The fine mild weather which we have been enjoying throughout January came to an end on Tuesday 11th, for the holding first or second class certificate. Engagement for six or nine months, \$1500 salary. Offers will be received until February 27th, 1893, by W. S. EDMISTON, Secretary.

there has been no wind to speak of and as coal and wood are both cheap and abundant there has been no suffering and very little inconvenience. The roads are good and business has scarcely slackened during the cold snap. Yesterday was the coldest day of all to the feeling, as there was a very slight northerly breeze blowing, which had an edge like a razor.

## METEOROLOGICAL.

Weather report for 12 days ending Monday, Jan. 30th, 1893. Reported for the BULLETIN by Mr. Alexander Taylor, observer at Edmonton.

	Max.	Min.
Thursday,	40	16
Friday,	38	18
Saturday,	39	18
Sunday,	42	25
Monday,	32	32

One set Heavy Bob Sleighs.  
One Double Spring Wagon.  
One Double Heavy Lumber Wagon.  
Two set Single Harness.

Which I will offer for sale by public auction at Sheriff's Office, Edmonton, at the hour of Two o'clock, p.m., on the Thirtieth day of February, 1893.

Dated this 27th day of January, 1893.

W. S. ROBERTSON,  
Deputy Sheriff.

TRACHER WANTED. For Clover Bar Public School District, No. 212, holding first or second class certificate. Engagement for six or nine months, \$1500 salary. Offers will be received until February 27th, 1893, by W. S. EDMISTON, Secretary.

TENDERS FOR ASSESSOR. Tenders will be received by the undersigned up to noon on Saturday, February 11th, for the assessment of Horse Hills Public School District No. 206. ALEX. McLAY, Secretary.

TENDERS will be received up to 31st of January by the undersigned for the assessment of Clover Bar Public School District No. 212. Work to be completed on or before February 27th, 1893. W. S. EDMISTON, Secretary.

TENDERS FOR SCHOOL HOUSE. Tenders will be received by the undersigned up to noon on Saturday, February 11th, for the erection of a log School house for Horse Hills Public School District No. 206. Plans and specifications may be seen at the residence of the undersigned, Horse Hills. ALEX. McLAY, Secretary.

## AUCTION SALE.

Under and by virtue of the powers contained in a Chattel Mortgage made and Registered as No. 653 by R. F. Shaw to Lafferty & Moore, I have seized the following goods and chattels:

One (1) White Horse, 5 years old.  
One (1) Buckskin Mare, 7 years old.  
One (1) Bay Wagon.  
One (1) Set Double Heavy Harness.

Which I will offer for sale by public auction at Sheriff's Office, Edmonton, at the hour of Two o'clock, p.m., on Saturday the Fourth day of February, 1893.

Dated this 27th day of January, 1893.

W. S. ROBERTSON,  
Deputy Sheriff.

## TENDERS.

Tenders will be received by the undersigned up to 6 o'clock p.m. of February 8th, 1893, for the privilege of a license for the establishment and usage of two ferries to run between the Town and the South side of the river at the same points as last year for the term of one year; the apparatus to be equal in every respect to that in use during last year; the rate of tolls chargeable to be according to the proposed tariff to be seen at the office of the undersigned; in other respects the provisions of the ordinance incorporating the Town of Edmonton to apply; Tenders may comprise either one or both the ferries. Edmonton, January 25, 1893.

A. G. RANDALL,  
Town Clerk.

## AUCTION SALE.

Under and by virtue of the powers contained in a chattel mortgage made 27th July, 1892, and registered as No. 555, by Francis Lamoureux and Joseph Lamoureux to Daniel L. Clark, I have seized the following goods and chattels: composed of saw mill machinery, including one steam engine, 25 horse power, and boiler 60 horse power, now situated in township Fifty-one (51) and Fifty-two (52) in range One (1) west of the Fifth Meridian in the district of Alberta. And also the plant and machinery pertaining to a flour mill, being on river L.B. 22, at Fort Saskatchewan settlement, district of Alberta; which I will offer for sale by public auction at Sheriff's Office, Edmonton, at the hour of one o'clock, p.m., on Monday, 13th day of February, 1893.

For further particulars enquire of S. S. & H. C. Taylor, solicitors for Mortgagee, or at my office, Edmonton.

Dated this 24th day of January, 1893.

W. S. ROBERTSON,  
Deputy Sheriff.

## AUCTION SALE.

Watchmaker and Jeweler.  
N.B.—All kind of watches, clocks, Jewellery and Pipes repaired and guaranteed.

## BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past, would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern States for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September, \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders.  
W. HUMBERSTONE.

## F. D. FORTIN

Standing advertisements—50 cts a line for 3 months.  
FRANK OLIVER, — PROPRIETOR.

EDMONTON BULLETIN, JANUARY 23, 1893

## NOTICE.

This present is the last issue of the first quarter of Volume XV of this paper and therefore all accounts for printing or advertising incurred during or previous to the past three months are now due. Accounts will be rendered at once, and as the paper has large obligations to meet an account of recent improvements, it is particularly requested that these accounts be paid promptly.

Subscription accounts are payable in advance.

## OUR SHAPE.

With last issue the BULLETIN made its bow in a new and larger form and hopes that the change meets the approbation of the public. The reasons for the change were that the former eight page form, printed on two separate sheets, was inconvenient for readers, did not give advertisers the best possible display, and was liable to create a wrong impression in the minds of casual observers as to the value of the paper and the importance of the place in which it was published. No person was more fully aware of these disadvantages than the proprietor, and the reason they were not remedied sooner was the great expense entailed by the necessary change. This change involved the purchase of a larger press at a cost in the neighborhood of \$1,000. Having faith in the continued progress of the country, and being determined to keep up with that progress, the expense has been incurred, and the paper will hereafter—barring accidents—appear in its present shape and size until a further enlargement is rendered necessary and possible by increased business and patronage. It may not be out of place to remark here that the amount of enterprise shown by the importation of an expensive printing press to such a far away place as Edmonton cannot be measured exactly by the actual first cost or the heavy freight bill. A fast printing press is a very delicate and complicated piece of machinery, concerning which either printers or machinists generally know nothing. Such presses are always supposed to be set up, repaired, or taken down by experts; and to bring such a press so far from where the services of an expert are available involves a very considerable risk of heavy loss in case anything should go wrong. The press has been set up by Mr. Geo. Sanderson. It is not yet in full working order but soon will be. It may interest the public to know that although the change from the former to the present shape and size entailed such a heavy outlay, now that that outlay has been incurred further enlargements can be made at a merely nominal first cost. At the same time it is not the intention to make enlargements until the business warrants. With the improvements in printing that have been made of late years and the improvement in taste that has resulted, the large or blanket sheet has gone out of fashion and become the badge or sign of slowness and backwardness. The leading papers of Canada such as the Globe, Mail and Empire are printed on sheets of six columns to the page. This is the capacity of the BULLETIN press. What is good enough for Toronto is probably good enough for Edmonton and to that extent the BULLETIN is prepared to meet the demand as it arises. With a fast press doing good work the BULLETIN can be issued on a neat sheet, clearly printed and the news brought more nearly up to date than it could possibly be on a larger, old fashioned, or less easily workable press. The BULLETIN has now as complete an outfit of printing machinery as any office in the Territories, and with new type from the best foundry in the world—Miller & Richard, Edinburgh—is able to produce a paper that in the matter of news shall maintain the reputation which it has made during the past ten years and in appearance shall be representative of the progress, prosperity and confidence of this the most progressive, prosperous and confident section of the Northwest Territories. It would be a mistake to underrate this feature of a newspaper's influence. The newspaper of a town is to the outside world the indication of the importance and standing of that town and of its inhabitants. If the paper carefully collects and publishes in interesting style the news of the place, the account of its progress, etc., these items are copied by other newspapers and the existence of the town is thus made known where it would otherwise never have been heard of. So too the paper is read not only by its subscribers but by hundreds of others, who are attracted by a good appearance or an interesting item. And not only is the reading matter considered. The advertising columns are scanned carefully by outsiders so that they may get an idea of who is doing business, what branches of business are being carried on and whether these businesses are being conducted in business like style or not. Every man who has a dollar invested in the town either in

real estate or business reaps the benefit of the result of the publication of the paper, and of the improvement in style which it has just made.

The last B.C. Gazette notes the incorporation of the B. C. Coal, Petroleum and Mineral Co., Ltd. Liab. The object for which the company is formed is the acquiring by purchase, from the Crow's Nest Coal and Mineral Company, Limited Liability, all their real and personal property for the sum of four million dollars, to be paid in fully paid up shares of the company, and for the purpose of acquiring coal lands and lands producing coal oil, and other lands, and working them in a workmanlike manner for the purpose of getting and mining coal and coal oil and other minerals therefrom, and selling or leasing the same; and also for the purpose of guaranteeing the debentures or bonds to be issued by the British Columbia Southern Railway Company for obtaining money for the construction of the said railway from Michael Creek, Crow's Nest Pass, to the international boundary, and thence to connect with some railway in Montana, United States of America; such guarantee to be limited to \$25,000 per mile for 170 miles of railway. The amount of capital stock of the company is \$4,000,000, divided into 40,000 shares of \$100 each. The three trustees named to conduct the affairs of the company for the first three months are Messrs. J. D. Pemberton, E. G. Prior and William Fernie, all of Victoria, and the period of the company's existence is limited to 50 years.

## BUILDING.

## A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

## MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

IN LADIES' MEN'S AND CHILDREN'S DEPARTMENTS  
HOUSE FURNISHINGS, &c., &c.

Will be found a splendid assortment of goods which cannot fail to please, and at prices that must draw crowds of purchasers.

## W. JOHNSTONE WALKER,

DIRECT IMPORTER OF ENGLISH GOODS.

## ::: Norris & Carey, :::

## J. A. McDOUGALL.

## PROGRESSING, BUT HARD UP.

### Commercial.

Despite the talk of hard times among Manitoba farmers, on account of the phenomenally low prices which have ruled for cereals this year, many seem to have money enough on hand to enjoy expensive holiday trips. There are no people in Canada who spend more money travelling than Manitobans. A large number of our settlers are from the older provinces of the east, and though the trip is an expensive one, many of them go east once a year to visit their old homes and friends. The winter being the quiet season with farmers, is the time they generally make their trips, and this year, as usual, there has been quite an exodus of our population eastward, on their annual visiting tours. A Canadian Pacific railway agent at one small country station reports his return tickets to Ontario sold during the month of December, besides a number of excursion tickets to the Old country and the United States.

The fact is, that while many Manitoba farmers are hard up this season for ready cash, they are (with the few exceptions of those who would be sure to fail, no matter where they went) getting ahead all the time and gathering more wealth about them, in stock, buildings, lands, etc. The reason many of them are hard up is, they go into debt too freely, owing to the great inducements afforded in the credit system which prevails here, of going into debt. People who go into debt too freely, will always be hard up for ready cash, no matter how fast they may be accumulating property about them. This is the way the matter stands with many of our people. They are branching out, extending their operations, and buying freely on credit, so that even while they are accumulating wealth about them, they are sometimes unable to meet obligations as they should. Our business system which holds out so many inducements to buy on credit, and even urges farmers to go into debt, is at the bottom of most of the trouble.

### A LITTLE HORSE SENSE.

A writer in the Winnipeg Tribune has the following on diseases of children:

Women often cause irreparable harm by a mistaken idea of kindness, and in no way more than in visiting persons afflicted with infectious diseases, and carrying the germs away with them to take root and develop in any of their healthy friends whom they may happen to meet. They may be proof against the disease themselves, and for that reason may consider that every one else is, or ought to be, proof against it too. Selfish fear is cruel, but willful carelessness is criminal. I read a notice in a paper a few months ago of the death of a naturally healthy little boy, the only child of a widow who was completely wrapped up in him, and later I received a letter telling me how the little boy had died. The children of a neighbor had contracted diphtheria, and, notwithstanding the doctor's orders to the contrary, this boy's auntie had called at the house—not to do any good, but merely to enquire how the children were, and returning home took the child on her knee to tell him about those poor little children who were shut up in the house away from everyone because they were so sick. A few days afterwards his little nephew died from the effects of the most malignant form of diphtheria.

You can count by the thousand children who are dead, or blind, or otherwise diseased from the effects of scarlet fever, or measles, or other so-called children's diseases, from which no effort was made to save them because "they would have to take it sooner or later," and those little mortals grew up with this awful burden upon them because their parents or friends were not careful to keep them from taking the disease. The exaggerated idea that children must go through certain forms of sickness before the years of manhood or womanhood are reached is an exploded one among scientists, who say that disease is only the result of wanton carelessness, and that sanitary measures alone are necessary to combat the evil. Take for example smallpox; we count it one of the diseases that we can live without and therefore take every measure to prevent its gaining an entrance into country, but in Mexico, especially along the borders of the Rio Grande del Norte, smallpox is looked upon as a natural consequence of living, and the natives in their filthy houses are never free from it.

If women could only be convinced that disease is a crime (it being caused in the first place by carelessness in sanitary matters) and not look upon every sickness as "a dispensation of an all-wise Providence," and then seek to help in the dispensing work by going from one to another and carrying the little microbes with them for fear so-called "Providence" would fail to make its visits general, but rise up in arms against it using soap and water and fire as their own instruments of defence, and insisting upon the board of health doing its part by making and keeping good sanitary laws, by condemning defective sewage and plumbing, by the erection of a crematory, where all refuse would be burned instead of being dumped into a river or out on the prairie to later return to us, then they would find "Providence" visits to be of a more welcome kind; or rather, they would cease to call the results of their own sins the visitations of a Creator whose chief glory is in the happiness of his creatures.

From the prevalence of infectious diseases in Winnipeg, and indeed in the whole of Manitoba to-day, the outlook for us does not appear promising, but it is most inviting for one simply kills them," (so says a writer in the Connecticut Board of Health Bulletin) and if we do not want to experience its practical demonstration, we had better make haste and get rid of the diseases we have, and then prepare our country to resist those we have not.

The "Soo" road, one of the many United States branches of the C.P.R., is following the same course as was followed by the C. & E. branch. The Northwest Magazine of St. Paul, says: "In building across North Dakota on its way to the Canadian Pacific the Soo road appears to avoid the existing towns. It crosses the Fargo and Southwestern road about a mile west of the important wheat market town of Sheldon and goes on a little farther north to make a new town of its own called Enderlin. When it gets to Valley City, which is one of the largest shipping points in the state, it actually goes around it on the bluffs and makes a station nearly two miles distant up the valley. It crosses the Cooperstown branch of the Northern Pacific about half a mile from Odell, where there are three or four grain elevators, and makes a station a mile distant. At Carrington, a county-seat town and a good trading point, its station is about a mile away from the business houses. Apparently the line is being built with an engineer's eye to distance and grades and with no special view to traffic or the convenience of established centres of population. This is a mistaken policy. A railroad should serve the country it passes through and should be willing to go out of its way if needs be to reach the points where the people have created conveniences for business."

Saskatchewan Times, Prince Albert: "The combined dwelling house and ox stable lately erected on the McKenzie estate adds greatly to the appearance of the front street."

Canada is not known to have had a case of lynching since she became a Dominion. Last year there were 236 cases in the United States, as compared with 195 the year before.

W. V. MacIsaac, the senior member of the legal profession in Prince Albert died on Jan. 18th. Deceased began to practice law in Prince Albert in 1878. He leaves a widow.

Kamloops, B. C., is about to become incorporated.

## EDMONTON BRICK COMPANY.

Have purchased their Brick Machinery to be shipped at once, the machinery is of the latest improved make and will turn out the finest kind of pressed brick, the brick will be considerably larger in size than the usual brick so the purchaser may count on the saving of one thousand in every ten, also less time and labor required. The price will be \$10.00 per thousand delivered inside the city limits in large quantities. We will have brick ready for sale about the 1st of May next. Any person requiring brick early it would be to their advantage to give their orders as soon as possible. We guarantee our brick 1st class and to fill all orders after May 1st next.

MESSRS LITTLE & MALONEY, PROPRIETORS.

## BRICK! BRICK! Yes BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deceived by parties who claim to make a pressed brick with a sand stock machine, or produce them in Maylin this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern States for \$22.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders. W. HUMBERSTONE.

## AGRICULTURAL SOCIETY.

The adjourned annual meeting of the Edmonton agricultural society was held in Robertson's Hall, on Saturday afternoon at 2 p. m. The attendance was not large. The president M. McCauley, took the chair, and after the secretary's report had been read, gave a short address, expressing satisfaction with last year's very successful exhibition and the work of the work of the society generally for the year. The membership roll had considerably increased, and he hoped the increase would continue. He also spoke of the advisability of securing new seed grain for next season. J. L. Alexander, Dominion intelligence officer, made a few suitable remarks and proposed that the society should have an exhibit of grain placed in some prominent place in town so that delegates and visitors generally could see the quality of the grain raised in this district. The following officers were elected for the ensuing year: M. McCauley, president; Geo. Long, vice president; Wm. Walker, 2nd vice president; Directors, M. McCauley, W. Clark, J. F. Adamson, R. McKernan, John Cameron, W. Stephens, J. R. Brenton, Alex. Adamson, D. C. Robertson, J. Eccles, R. Kelly, Campbell Young, secretary-treasurer. It was agreed to have a show of stallions, bulls and grain in the spring, not later than the 25th April. A vote of thanks was passed to J. A. McDougall for auditing the society's books.

## TOWN COUNCIL.

Wednesday, January 25.

Present: The mayor and councillors McDougall, McLeod, Strang, Goodridge, Sanderson and Gallagher.

## COMMUNICATIONS.

J. R. Hall, circular re-Immigration.  
G. J. Kinnaird, application for position of auditor.  
H. C. Lisle, application for position of auditor.

Isaac Cowie for position of auditor.  
P. Daly, re pamphlets.  
McDougall—Gallagher moved that the application of G. J. Kinnaird for the position of auditor be accepted.  
Goodridge—Strang moved in amendment that Isaac Cowie's application for the position of auditor be accepted. Carried.

Strang—Sanderson moved that 200 Edmonton district pamphlets be delivered to P. Daly.

## FINANCE COMMITTEE'S REPORT.

## DRESS GOODS DEPARTMENT.

This branch of our business has received un-  
usual time and attention in selecting the correct  
styles for the season.

We would direct special attention to our  
large range of stylish Tweeds and Tweed effects  
now so much in demand, also to our large  
assortments of Cashmeres and Henriettas &c.,  
in all the leading shades &c.

PARTICULAR ATTENTION  
is specially called to our well assorted stock of  
DRESS TRIMMINGS.

See our latest novelties in Gimps, Jet, Feather  
edging and fancy braids in all shades and styles.

## STAPLE DEPARTMENT.
